## Elba BOE approves several personnel rehires during monthly board meeting

by Linda Hodge, Editor

The Elba City Schools Board of Education met Tuesday evening, April 23, for the monthly meeting, and board members had the task of making several personnel decisions from recommendations of the superintendent and school principals.

As he presented each category for approval, superintendent Chris Moseley said the recommendations had come to him from either high school principal Wynn Grimes or elementary school principal Debra Strickland, respectively. Each was in attendance and confirmed the appropriate recommendations.

The first set of personnel matters recommended and approved was for resignations at the elementary school, effective May 23rd. Teachers resigning their posts at the end of the current school year at the elementary school include: Brandon Evans, EES band director; Kelly Gaskins, EES special education teacher; and Kerri Pylant, EES second grade teacher.

The high school had one teacher non-renewal recommendation: High school English teacher Ria Turk was non-renewed, effective May 23rd.

The elementary school had several teacher/aide rehires recommended and approved. Two of those received tenure with this rehire.

The elementary school rehires included: Claire Bailey, Katie Harrison, Rachel Morrow, Lindsey Swan, Brooke Weeks, and Kelley Wilson. Also approved for rehire was Sarah Mitchell, EES aide. The two receiving tenure were teacher Brooke Weeks and aide Sarah Mitchell.

The high school also had several rehires recommended and approved by board members. These rehires included two receiving tenure as well.

The high school rehires were: Kristen Burtram, EHS nurse; Melissa Mularz, EHS aide; and EHS teachers Ashley Chappell, Al Gilmore, Shaun Hammonds, Pate Harrison, Amanda Martin, Robin Mitchell, Phil Smith, and Seth Wilcox. The two receiving tenure with the rehire were band director/teacher Shaun

Hammonds and nurse Kristen Burtram.

Additional personnel matters recommended by the superintendent and approved by the board included: Margarita Jimenez rehired as a CNP [Child Nutrition Program] worker for the schools; and Roy King and Ricky Mularz each rehired as bus drivers for the school system.

Also during the meeting, the board approved a contract form with South Alabama Contracting for a project. The approved motion gave board president DeAnn Grantham authority to execute documents for this project as necessary.

The project work will include repairing drainage structures, along with erosion issues and washouts

around the schools.

Moseley said this project uses FEMA dollars that need to be utilized by June 21st to open up availability of additional FEMA funds for the school system.

Board members approved the financial statement for March 2019, which was confirmed to have been reconciled to the bank statement and general ledger as of March 31st.

Several announcements from the superintendent included noting the Band Banquet set for Tuesday night, May 7, at 6 p.m. Moseley said this will be held at the Westside Baptist Church activities building, and board members were invited to attend.

He said Elba would be

## Coffee County BOE approves numerous personnel matters during called April 25 meeting

by Linda Hodge, Editor

The Coffee County Board of Education met Thursday afternoon, April 25, in a called meeting of the board, and the main purpose of the meeting was to approve personnel recommendations from the superintendent.

With the end of the school year nearing, there were several recommendations presented to board members for consideration, including non-renewals, resignations, and employments.

One retirement of a long-time employee was approved. Angela Oakes, special education teacher at New Brockton High School will retire at the end of the current school year.

The teacher non-renewals of probationary employees that board members approved were as follows: Haley Gillo, elementary teacher at Kinston; Charles Windham, science teacher at New Brockton High; and McKenzie Grantham, math teacher at New Brockton High.

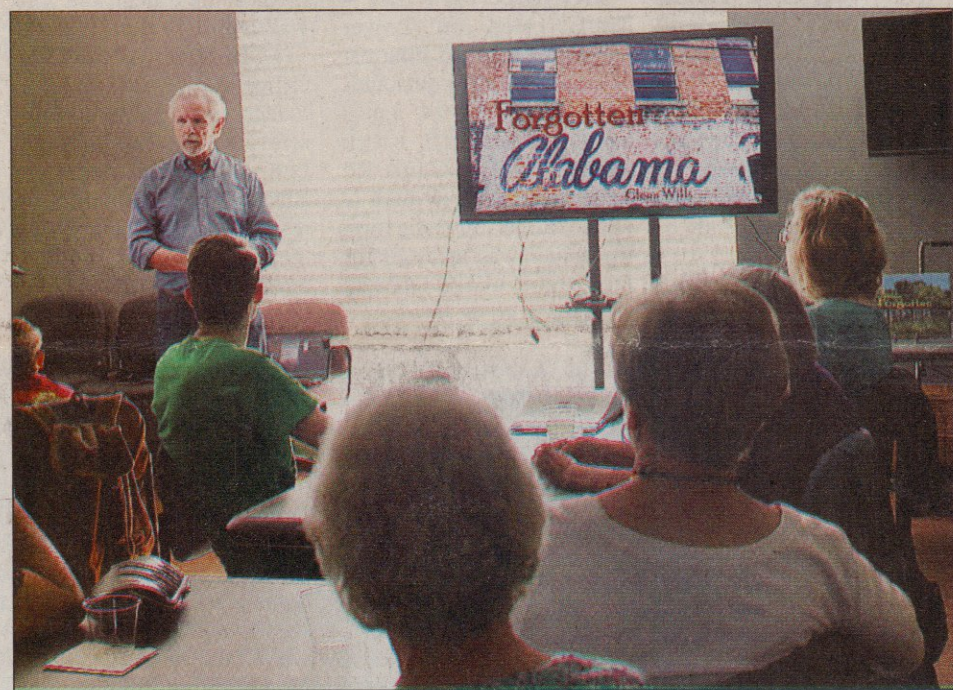

Resignations were from teachers at New Brockton and Zion Chapel. These included: Joni Jones, teacher at New Brockton Elementary; Abbey Bowers, teacher at New Brockton Elementary; Justin Jones, physical education teacher at New Brockton High [his last workday was actually April 1st]; Britney Keene, social studies teacher at Zion Chapel High; Cody Keene, special education teacher at

Zion Chapel High; and Ryan McNaughton, agriculture teacher at Zion Chapel High.

Looking ahead to the 2019-2020 school year, superintendent Kevin Killingsworth recommended several hires, and he received approval by the board.

Teacher employments included: Amy Hawkins, teacher at New Brockton Elementary; Amanda Hutto, teacher at New Brockton Elementary; Meagan Jackson, teacher at New Brockton Elementary; Brenna Kokoszka, teacher at New Brockton Elementary; Jamie Hamilton, special education teacher at New Brockton Elementary; Regina Brown, science teacher at New Brockton High; Katherine Elizabeth Lord, math teacher at New Brockton High; Tyler Stump, physical education teacher at New Brockton High [he began work May 1st]; Morgan Murphy, agriculture teacher at Zion Chapel High; Emily Roberts, elementary counselor at Zion Chapel; Kayla Purvis, physical education

**Author/photographer Glenn Wills is shown making a presentation** Monday, April 29, at the Elba Public Library on his book and series "Forgotten Alabama." Wills shared stories behind many of his photos to a group of nearly 20 people in attendance Monday.

**"Forgotten Alabama" author/photographer visits Elba Library**

by Linda Hodge, Editor

In the meeting room of the Elba Public Library, tales of Alabama history came to life Monday, April 29, as author/photographer Glenn Wills discussed his "Forgotten Alabama" books to a room of nearly 20 people.

Wills explained how he made the move from operating a satellite truck for television news to creating his "Forgotten Alabama" series which showcases photographs he has made traveling all across the state looking for forgotten and abandoned structures.

Wills said Alabama has 52,419 square miles, and he

has traveled all over it during his adventures to capture these abandoned, but once vital, structures in Alabama's history.

During Monday's presentation at the Elba Public Library, Wills shared many of his favorite photos from across the state, along with the stories behind the structures that helped make them a part of the "Forgotten Alabama" series. After his presentation, attendees had an opportunity to talk with Wills and enjoy refreshments provided by My Happy Place and Nell Gilmer.

Elba library director Jennifer Amlong said the local library was thrilled to

host Wills for Monday's presentation, and she was happy to see a great turnout for the presentation.

Amongst noted the Elba Public Library does have copies of Wills' books available for checkout.

The library also hosted author Sara Stinson on Tuesday, April 30, as she shared her book "Finger Bones."

“When it comes to privacy and accountability, people always demand the former for themselves and the latter for everyone else.” – David Brin

Climate change . . . the pros and cons of this issue are . . . well a whole bunch on each side. We see this being one of the many hot talking points (read that as a plank in political platforms) in the already started presidential campaign. Our hope is that we will not elect a president based solely on his or her position on global warming! Experts admit that climate change has happened throughout the history of this planet yet many of them add that the actions (or inactions) of humans now has these changes coming at a runaway pace. We don't have proof for or against the issues involved in global warming but do think there are things humans can do to eliminate some of the bad side effects of climate change. Even if there is no slowing it down, the chance that our efforts could have a positive impact make it a worthy effort to try.

Measles are sweeping the U. S. So many people have not had measles, nor the shots, and thus this highly contagious virus is spreading like wildfire. If an adult would rather get these diseases than take preventive shots, well we live in a free country; however, to opt out of vaccinating children is just not OK. We had our bout with the measles, mumps and chicken pox, all as a first grader. This of course brought them across the street to three younger sisters. In those days there were no preventives, just worried mothers. Now with methods to prevent these potential harmful sicknesses, it is just wrong not to take advantage of the SAFE technology. We have heard all the horror stories “someone read online” etc. Most have been debunked by the experts, but that does not end the life of the stories of the bad things caused by those ‘shots’. Bah Humbug, so many would rather trust their internet or discredited books than take the shot.

‘Forgotten Alabama’ author/photographer Glen Wills gave a presentation at the Elba public library Monday. We missed his talk but have a warm feeling when events like this are held in Elba. While the group in attendance was classified as “great”, we feel that ten times that many local folks would have enjoyed being there and would have left the event more knowledgeable of Alabama.

Alabama voters will get to vote on making the lottery legal in the state. Already we are seeing editorials critical of the bills making their way through the legislature. Thus far we have avoided reading them . . . that is until we know for sure what the voters will be deciding election day. However nothing would put more excitement into state voters than to read about their neighbor or neighbor's second cousin twice removed hitting one of the megabucks jackpots. I recall a couple of years ago a man we know and have drank coffee with many times won a couple million with one of those scratch off tickets. There was lots of excitement among his friends and neighbors.

Remember Martha

by R.A. Mathews

She was frustrated. Apparently, all she wanted was to present an elaborate, well-cooked meal. There are good reasons to believe Martha was wealthy and had plenty of kitchen help, nevertheless she was upset. Her younger sister Mary was in the other room sitting idly, listening to Jesus.

At some point, Martha approaches Him, complaining that she's doing all the work, and asks Him to instruct Mary to help her.

“Martha, Martha,” Jesus says. “You are worried and bothered about so many things, but only one thing is necessary, for Mary has chosen the good part which will not be taken away from her.” (Luke 10:41-42 NASB)

Many remember Martha only from this story, thinking of her as a small player in the Bible. But, no, Martha is one of the most important people in Scripture. Let me show you why.

We know Jesus loved these two women and their brother Lazarus. (John 11:5) They lived in Bethany, a half hour from Jerusalem, and Jesus ate there repeatedly. Perhaps every time He went to

Jerusalem.

It's now the final year of Jesus' ministry, and He's nearly been stoned in the temple. Jesus knows He's going to die soon, but it must be at the Passover. So He takes His disciples to the safety of the wilderness across the Jordan River.

This is probably where Jesus receives word that Lazarus is very sick. Our Lord waits two days and then heads toward Bethany. Nearing the village, He learns that Lazarus has been dead for four days. Now remember that Jesus had waited only two days, so even if He'd come right away, Lazarus still would have been dead for two days.

When Martha hears that Jesus is nearby, she quietly leaves her home, which is filled with mourners, and goes to meet Him.

“If you had been here, my brother would not have died,” she says.

Jesus then tells her one of the finest passages of Scripture, “I am the resurrection and the life. He that believeth in me though he were dead, yet shall he live...” (John 11:24)

He asks Martha if she believes.

“Yes, Lord,” Martha

says. (John 11:27)

She returns home to tell her sister Jesus is nearby, quietly drawing Mary aside so Mary can also slip away and talk privately with Jesus. But Mary hears the news and runs from the house. The mourners who are there, thinking Mary is going to the tomb, follow her. When she reaches Jesus, she falls at his feet weeping and says, “If you had been here, my brother would not have died.”

Those words are the exact same ones Martha spoke, but Jesus' response to Mary is entirely different. Martha stood and talked to Him, Mary lies at His feet sobbing. The Bible then says just two words, making this one of the most tender moments in Scripture:

Jesus wept. (John 11:35)

Jesus could have easily lifted Mary and said it's going to be fine. I'm about to bring Lazarus back to life. But Jesus weeps with her. There's nothing He can do to change the suffering Mary has endured. His heart is with her heart.

Jesus then walks to the tomb. “Take away the stone,” He says.

But something else happens. Something just before the resurrection of

Lazarus. Here it is:

Martha doesn't want the tomb opened. “There will be an odor...” she says.

Martha had spent a lot of time with Jesus, she'd had the chance to know Him well. In fact, she'd just told Jesus that she believed in Him.

But Martha didn't believe.

If Jesus had done what Martha had wanted and walked away, Martha would have missed perhaps the greatest moment of her life.

Now do you see why Martha is so important?

There will be times in your life when God will walk you right up to the impossible. When you'll be asked to move forward on faith alone. If you don't believe—if you don't know how great your God is—you'll make the wrong decision. You'll turn back and miss what God has for you, perhaps the greatest moment of your life.

Remember Martha.

Football coach Pate Harrison was in attendance for the board meeting, and he said the two schools [Elba and New Brockton] would be splitting the gate monies for the event as it would be a fundraiser for both programs.

Finally, the superintendent said graduation is almost here. He said the Class of 2019 would graduate Tuesday evening, May 21st.

### Coffee County Republican Club meeting set for Monday, May 13

The Coffee County Republican Club (CCRC) will meet Monday, May 13, at 6 p.m., at Po Folks Restaurant in Enterprise.

The guest speaker will be Dothan attorney Valerie Judah, who will discuss civil asset forfeiture and associated issues, including protection of individual constitutional rights.

Senate Bill 191, sponsored by Decatur Senator Arthur Orr (R), is designed to make the state's civil asset forfeiture practices more just and equitable. Under Alabama's civil asset forfeiture policies, police are able to seize personal property from citizens without a criminal charge or conviction if they find probable cause to believe

the property could be connected to a crime. In order to regain their property, owners not convicted of crimes must go through a court process to prove the property was not connected to a crime.

Judah, a general practice lawyer, has been representing and defending clients in Alabama since 1999. She recently represented a client to recover assets seized under the provisions of the law.

Social time for the meeting begins at 6 p.m., and the program starts at 6:30. Guests will be ordering off the menu.

For additional information, contact CCRC Chairman Ed Foy at 334-494-4663.

### Coffee County Extension offers chainsaw safety workshop

The Coffee County Extension Office and Wiregrass RC&D will offer a Chainsaw Safety Workshop Tuesday, May 7, in Coffee County.

This workshop will be held at the Coffee County Farm Center. It is free to attend, and lunch will be served.

This workshop is open to professionals and homeowners. Topics will include: safety practices, chainsaw design, ergonomics, starting, limbing and bucking, basic felling and on-site demonstrations.

Seating is limited. Pre-registration is required.

In addition, there will be a very limited (8-10 people) advanced training, Wednesday, May 8th. In this training, participants will receive hands on training.

Sending an employee or supervisor to this second day training, at no charge, is a considerable savings based on if they had to send off or outsource. (Attendees of second day are required to attend the first day).

Everyone who completes the training will receive a certificate of attendance. Call the Coffee County Extension office at 334-894-5596 to RSVP - space is limited.

ELBA HIGH SCHOOL'S SHOW CHOIR [THE ECLECTICS] PERFORMED ITS SPRING CONCERT Thursday, April 25. The students that take show choir at Elba High School performed their show based off of the book/movie "Wonder". They ended the show by joining special guests, the ESCC Entertainers, for the final song.

THE ELBA HIGH SCHOOL CAREER CENTER STUDENTS HOSTED A CAREER PREPAREDNESS CAREER FAIR on Friday, April 26th. The fair was a result of students researching various careers. Displayed were poster boards full of the research found, as well as vision boards and props related to the job. Some of the careers focused on were aerospace engineer, brain surgeon, nurse, cosmetology, lineman, cowboy, and many others. The goal of the career preparedness class is to allow students to learn about various professions they are interested in, and introduce them to some that they may not have heard of before, so they can start thinking of what they might like to do in the future.

## Basin Baptist Church's annual community BBQ event set for Saturday

Basin Baptist Church, located at 9757 Highway 189 S, Elba, will host its annual Community BBQ this Saturday, May 4, from 3-7 p.m.

This is a free event! There will be food, entertainment, fun for the kids including inflatables, and plenty of time to fellowship with and 'get to know' your neighbors. Entertainment will include performances by the church's adult choir, children's choir, Basin 4 Him quartet, and other church members.

Special entertainment for the event, however, will be a performance by the Bluegrass Friendly Band, which consists of family and friends of the Spann family of Coffee County. Those coming together for Saturday's performance include: Eddie Spann, Larry Spann, JP Spann, Patty Spann, Laurette Blair, Caleb Spann, Tyler Spann, and David and Denise Pierce.

"We all grew up playing music all our life," Eddie Spann said of the group.

## A Lifelong Learning Experience

Educators extol the virtue of lifelong learning. They rightly remind us that we can never know everything, that there is always more to learn, and that we need to continue to grow. The same can be said of Bible study. Even if you began studying as a child, you can always learn more of God's will from that greatest of all books.

No less an intellect than U.S. President John Quincy Adams (1767-1848) spoke of his love for, and study of, the Bible. He made it his practice for many years to read through the Bible once a year. His plan was to read four or five chapters every morning immediately after waking up. He gave a full hour to this study and described it as "the most suitable manner of beginning the day." He went on to say that with "reference to revelation, to history, or to morality, it is an invaluable and inexhaustible mine

of knowledge and virtue." Following the example of Adams, let us commit to reading and studying the Bible every day. A good way to do this is to use a "one-year Bible" that is conveniently divided into three hundred sixty-five daily readings. Find a Bible reading plan and put it to work today!

## Question / Answer Section Q/A for the Week of 5-2-19

Q: On the day Jesus was crucified there was darkness from the \_\_\_\_ hour to the \_\_\_\_ hour.

A: On the day Jesus was crucified there was darkness from the 6th hour to the 9th hour. [Luke 23:44]

## Thought to Remember

Fear is simply out of distrust for God.

## Question for the Week of 5-9-19

### Multiple Choice

Q: Who had seven sons who always celebrated their birthdays with a feast? (Eli), (John), or (Job)

Today is a good day! Be grateful.

Southeast Insurance and Real Estate honors "Teacher of the Month"

Southeast Insurance and Real Estate recently honored its "Teacher of the Month" for March 2019. The recipient of the award was Cery Morgan, a 7-12 teacher at New Covenant Christian Academy in Brantley, Ala.

Cery is married to Hagan Morgan. They are the parents of a son, Parker, and their daughter Grayson will be born in August.

Mrs. Morgan has been teaching for seven years [eight in August]. She helps students in each subject.

"I love teaching and feel it is what God has called me to do and this is where He has called me," she said. "To be able to teach, love, and glorify God in the work place,

especially at school is a blessing. I love seeing students eager to learn and know more. Being able to watch them grow and being a part of that process is worth it all."

The "Teacher of the Month" award was presented to Morgan by Ronnie Young, owner/agent at Southeast Insurance and Real Estate in Elba (shown above). Joining the two for the presentation were several of Morgan's students.

Mrs. Morgan now will be entered into a drawing along with other monthly winners for the Southeast Insurance and Real Estate "Teacher of the Year" award. That award will be presented after the end of the school year.

## WATER QUALITY PROTECTION

### Information about Lead

Only use water from the cold-water tap for drinking, cooking, and especially for making baby formula. Lead in household water usually comes from the plumbing in your house, not from the local water supply, and hot water is more likely to cause lead to leach from plumbing materials. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available online at <https://www.epa.gov/your-drinking-water/basic-information-about-lead-drinking-water> or by calling the EPA's Safe Drinking Water Hotline at 1-800-426-4791.

The sources of drinking water (both tap water and bottled water) include rivers, lakes, streams, ponds, reservoirs, springs, and wells. As water travels over the surface of the land or through the ground, it dissolves naturally occurring minerals and radioactive material, and it can pick up substances resulting from the presence of animals or from human activity. Contaminants that may be present in source water include:

- Inorganic contaminants, such as salts and metals, which can be naturally-occurring or result from urban storm water run-off, industrial or domestic waste water discharges, oil and gas production, mining, or farming.

- Pesticides and herbicides, which may come from a variety of sources such as agriculture, storm water run-off, and residential uses.

- Organic chemical contaminants, including synthetic and volatile organic chemicals, which are by-products of industrial processes and petroleum production and can also come from gas stations, urban storm water runoff, and septic systems.
- Radioactive contaminants, which can be naturally occurring or be the result of oil and gas production and mining activities.

In order to ensure that tap water is safe to drink, EPA prescribes regulations which limit the amount of certain contaminants in water provided by public water systems. Food and Drug Administration (FDA) regulations establish limits for contaminants in bottled water.

Some people may be more vulnerable to contaminants in drinking water than the general population. People who are immuno-compromised such as cancer patients undergoing chemotherapy, organ transplant recipients, HIV/AIDS positive or other immune system disorders, some elderly, and infants can be particularly at risk from infections. People at risk should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by Cryptosporidium and other microbial contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

Based on a study conducted by ADEM with the approval of the EPA a statewide waiver for the monitoring of asbestos and dioxin was issued. Thus, monitoring for these contaminants was not required.

If you have any questions about this report or concerning your water utility, please contact Andrew Shearer at 334-897- 0150. We want our valued customers to be informed about their water utility. If you want to learn more, please attend one of our regularly scheduled water board meetings. They are held on the third Monday of each month at 5:30 p.m. at the Coffee County Water Authority office in Elba.

attend one of our regularly scheduled water board meetings. They are held on the third Monday of each month at 6:00 p.m. at the Sonoma County Water Laboratory, 2000 S. Main St., Santa Rosa, CA 95403. More information about contaminants in drinking water and potential health effects can be obtained by calling the EPA's Safe Drinking Water Hotline at (1-800-426-4791).

**Coffee County Water Authority** routinely monitors for contaminants in your drinking water according to Federal and State laws. The Alabama Department of Environmental Management (ADEM) allows us to monitor for some contaminants less than once per year because the concentrations of these contaminants do not change frequently. We have learned through our monitoring and testing that some constituents have been detected. We are pleased to report that our drinking water meets federal and state requirements.

**Action Level-** the concentration of a contaminant that, if exceeded, triggers treatment or other requirements.  
**Coliform Absent (ca)-** laboratory analysis indicates that the contaminant is not present.

**Disinfection byproducts (DBPs)**- formed when disinfectants react with bromide and/or natural organic matter (i.e. decaying vegetation) present in the source water. Disinfection byproducts for which regulations have been established include trihalomethanes (THM), haloacetic acids (HAA5), bromate, and chlorite.

**Distribution System Evaluation (DSE)**- a one-time study conducted by water systems to identify distribution system locations with high concentrations of THMs and HAAs.

**Level 1 Assessment-** a study of the water system to identify potential problems and determine (if possible) what total coliform bacteria have been found in our water system.

**Level 2 Assessment-** a very detailed study of the water system to identify potential problems and determine (if possible) why an E. coli MCL violation has occurred and/or why total coliform bacteria have been found in our water system on multiple occasions.

**Maximum Contaminant Level (MCL)**- highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

**Maximum Contaminant Level Goal-** the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

**Micrograms per liter (µg/L)** – equivalent to parts per billion (ppb) since one liter of water is equal in weight to one kilogram.

micrograms per liter (ug/L), equivalent to parts per billion (ppb), since one liter of water is equivalent to one billion micrograms.

Milligrams per liter (mg/L) – equivalent to parts per million

**Nephelometric Turbidity Unit (NTU)**- a measure of the clarity of water. Turbidity in excess of 5 NTU is just noticeable to the average person.

**Not Detected (ND)-** laboratory analysis indicates that the constituent is not present above detection limits of laboratory equipment.

**NR (Not Reported)**- laboratory analysis, usually Secondary Contaminants, not reported by water system. EPA recommends that secondary standards be reported but does not require systems to comply.

Parts per billion (ppb) or Micrograms per liter ( $\mu\text{g/l}$ )- corresponds to one minute in 2,000 years, or a single penny \$10,000,000.

Parts per million (ppm) or Milligrams per liter (mg/l)- corresponds to one minute in two years or a single penny in \$10,000.

Parts per quadrillion (ppq) or Picograms per liter (picograms/l)- corresponds to one minute in 2,000,000,000 years, or a single penny in \$10,000,000,000,000.

**Parts per trillion (ppt) or Nanograms per liter (nanograms/l)** - corresponds to one minute in 2,000,000 years, a single penny in \$10,000,000,000. **Picocuries per liter (pCi/L)** - a measure of the radioactivity in water.

**Running Annual Average (RAA)-** yearly average of all the DPB results at each specific sampling site in the distribution system. The RAA, along with a range, is reported in the Table of Detected Contaminants.

**Standard Units (S.U.)-** pH of water measures the water's balances of acids and bases and is affected by temperature and carbon dioxide gas. Water with less than 6.5 could be acidic, soft, and corrosive. A pH greater than 8.5 could

and carbon dioxide gas. Water with less than 6.5 could be acidic, soft, and corrosive. A pH greater than 6.5 could indicate that the water is hard.

**Treatment Technique (TT)-** a required process intended to reduce the level of a contaminant in drinking water.

**Variances & Exemptions (V&E)-** State or EPA permission not to meet an MCL or a treatment technique under certain conditions.

\* Figure shown is 90<sup>th</sup> percentile and # of sites above action level (1.3 ppm) = 0

At the end of this report is a Standard List of Primary Drinking Water Contaminants for which our water system routinely monitors. These contaminants were not detected in your drinking water unless they are listed in the Table of Detected Drinking Water Contaminants.

## Views From The Pressbox

By Ricky Mularz, Sports Editor

*Our grandson Lawson had to be a tired young man over the weekend as he spend Friday on the football field enjoying field day, stayed up late playing at the new playground at Hawkins-Williams Park while a softball tournament was being played, got up early on Saturday to head back to the softball tournament, went to a birthday party that had a water slide for a few hours in the afternoon, and then was back at the tourney. It has to be good to be young and filled with energy!*

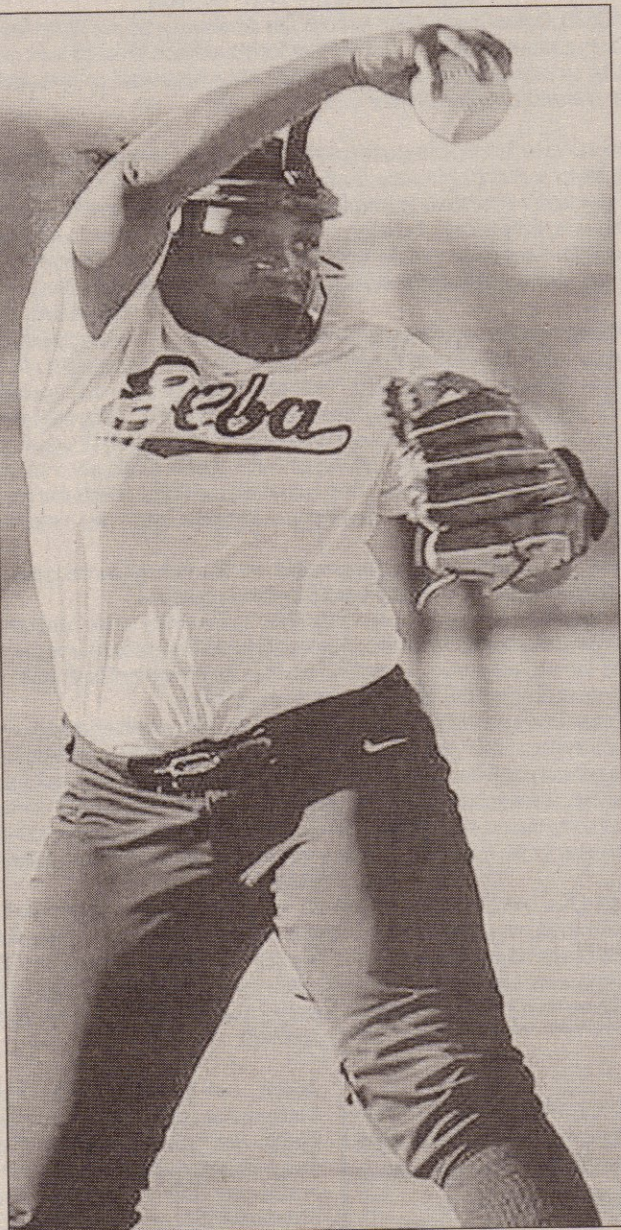

*For what it is worth....*

\*\*\* *The Elba Lady Tigers hosted* their annual softball tournament over the weekend and while they failed to keep a trophy in town, they did claim a solid 3-2 win over 4A power Montgomery Catholic. The Lady Tiger defense shined in the big win and should give the girls confidence heading into this week's area tournament. The win was the 11th of the season for the Lady Tigers, which marks their second straight season with double digit wins after several years of struggles.

\*\*\* *All the teams in the area played in tournaments* over the sunny weekend, but none of the teams managed to bring home any silverware. Brantley, Kinston and New Brockton were all at the Pleasant Home, while Zion Chapel stayed closer to home and was one of ten teams that came to Elba. The Lady Bulldogs from Brantley posted some big wins in their tourney before being blanked by Wicksburg, the Lady Bulldogs from Kinston battled hard in every game, the Lady Gamecocks from New Brockton got in some valuable experience and the Lady Rebels got a big win that should give them a boost heading into area tournament play. It was a great weekend for softball and all the teams enjoyed the sun and competition.

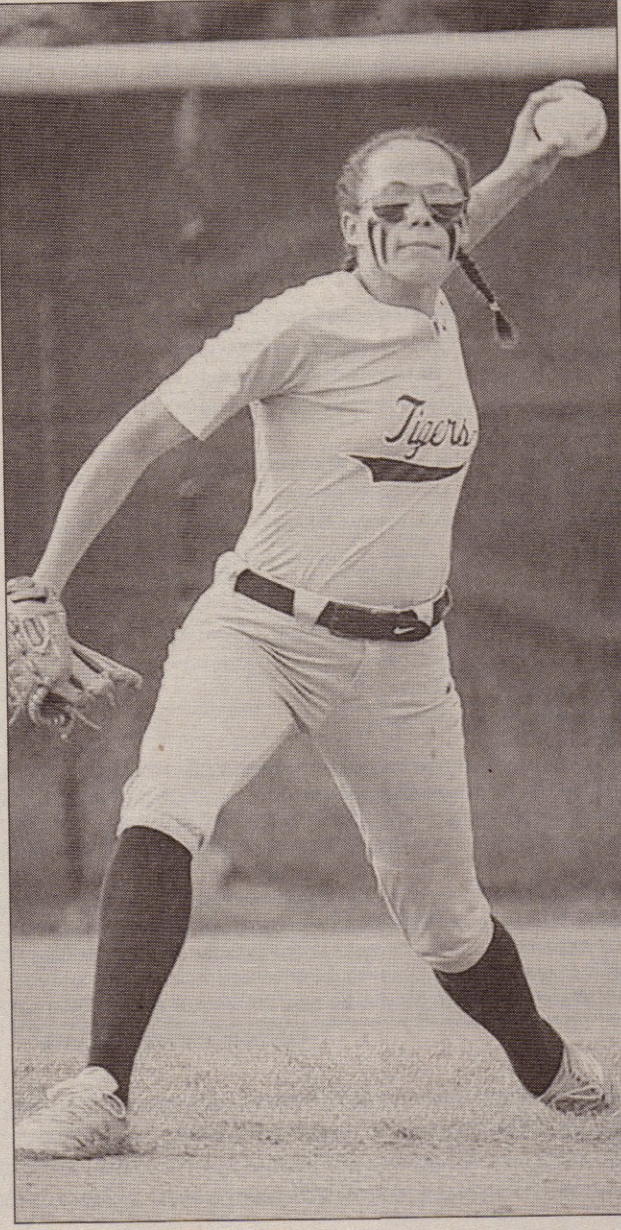

\*\*\* *The NFL draft was held last week* and if you think being drafted is all about bragging rights and being selected by the 'right' team, you are badly mistaken — it is all about the big bucks. Players drafted in the first round get a four-year contract with a salary based on the NFL rookie salary cap of \$188.2 million. Alabama had three players drafted in the opening round and all three will soon be millionaires. Quinnen Williams was the third player picked and will get a \$21.6 million signing bonus, while Jonah Williams signing bonus is set at \$11.9 million and Josh Jacobs signing bonus will have to get by with a signing bonus of only \$6.67 million. Top pick Kyler Murray is guaranteed a \$35, 035 million dollar contract, and K'Neal Harry, the final pick of the opening round, has a salary set at \$10,070,227 million bucks. If you don't think the NFL is all about big bucks, you just don't understand the process.

\*\*\* *In closing....* I would like to give a huge shout out to Greg Hanchey and his staff at the Elba Recreation Department for their hours of hard work getting the fields ready at Hawkins-Williams Park for last weekend's high school softball tournament. Over two inches of rain fell the night before the tournament and many felt the annual event may have to be cancelled, but the recreation staff worked wonders and the fields were in great shape throughout the two-day event. As the former recreation director with the city I can assure you that working in mud and trying to dry a field isn't easy work, and I bet some of the guys went home with blisters on their hands after hours of raking and pishing shovels. *Great job guys!!*

Elba Lady Tiger A'Maysia Whitfield tossed a two-hitter in last weekend's 3-2 tournament win over Montgomery Catholic. Whitfield also had 3 hits in the Lady Tigers' four games in the tournament.

## Lady Tigers shock Catholic 3-2

The Elba Lady Tigers rallied from an early 2-0 deficit to stun Montgomery Catholic 3-2, in the third round of last weekend's Lady Tiger Tune-Up Softball Tournament, held at Hawkins-Williams Park.

Montgomery Catholic combined two hits with three stolen bases and one walk to grab an early 2-0 lead in the top of the first inning, but the Lady Tigers bats began to come to life in the second as Jaylyn Baker ripped a double off the fence and Praise Edwards outran a slow roller for an infield hit. Elba failed to push across either baserunner; however, and the Lady Tigers still trailed 2-0 when they came to bat in the third.

Zaida Williams reached on a walk to open the bottom of the third, and was replaced by courtesy runner Aimee Senn. Sandra Lindsey drew a walk to put two runners on base, and McKenzie Hooks followed with a two-run double to drive in Senn and Lindsey.

Hooks later scored on a fielder's choice off the bat of A'Maysia Whitfield and after three innings Elba had taken a 3-2 advantage.

Neither team scored in the fourth, but Montgomery Catholic threatened to regain the lead in its final at-bat as a single and a walk put two runners on base with one out. Both base runners advanced on a passed ball, but on a bunt attempt by Catholic, Lady Tiger pitcher A'Maysia Whitfield faked a throw to first, fired a strike to third, and Sandra Lindsey tagged out the runner for out two. An intentional walk to the Catholic clean up batter loaded the bases with two outs, and McKenzie Hooks fielded a hard grounder at second base and made the throw to first as the Lady Tigers pulled off the upset over the 4A power.

McKenzie Hooks had 1 hit and knocked in 2 runs to lead Elba at the plate, while Jaylyn Baker added 1 hit, Sandra Lindsey and

Aimee Senn both scored 1 run, and A'Maysia Whitfield added an rbi and tossed a two-hitter inside the circle.

In other action at the tournament, the Lady Tigers lost on opening night to 6A Eufaula 5-0 and 2A power Leroy 13-1, and on Saturday were eliminated by 3A power and eventual tournament champion Houston Academy 15-1.

In the loss to Eufaula, the Lady Tigers trailed only 1-0 heading into the fourth inning, but saw Eufaula pull away late to claim the win. McKenzie Hooks had 2 hits to lead Elba at the plate, while A'Maysia Whitfield and Praise Edwards both added 1 hit.

In the loss to Leroy, the Lady Tigers fell behind early after a grand-slam home run and allowed nine walks in three innings to drop its second game of pool play. McKenzie Hooks, Makinna Gray and A'Maysia Whitfield all had

1 hit to lead Elba at the plate, while Aimee Senn scored the Lady Tigers only run.

In the loss to Houston Academy, the Lady Tigers trailed only 3-2 heading into the fourth inning, but saw the wheels fall off the wagon in the final two frames. A solo home run by Jaylyn Baker cut the Houston Academy lead to 3-1 in the bottom of the second, and the Lady Tigers pulled within 3-2 in the bottom of the third when Sandra Lindsey got a one-out single, moved to second on a single by McKenzie Hooks, and stole third base and home. Elba threatened in its last two trips to the plate, but left two runners on base in both innings and was eliminated in the semifinal contest. Sandra Lindsey had 1 hit, scored 1 run and stole two bases to lead Elba at the plate, while Jaylyn Baker, McKenzie Hooks, Makinna Gray and A'Maysia Whitfield all added 1 hit.

## Elba Tigers open spring football practice

The Elba Tigers will hit the practice field this week as they begin spring football practice and begin what they hope will be a long journey to another banner season in the fall.

"We have over fifty players out for spring drills and while we definitely have a lot of work to do, we do feel like the players are ready to get to work and we are all looking forward to a good spring camp," stated Elba head coach Pate Harrison. "This is my second spring at Elba and the biggest difference between this year and last year is the condition of the athletes. All the players are bigger, stronger and faster than a year ago, and with over fifty players out for spring drills there is competition at every position. I know we have a lot coming back from last season and have high expectations, but spring training is a key part of a team's success and we need to find the best players for every position and develop some quality back ups."

"Spring training is now limited to only ten days, and the first three days are

limited since we can't go in full pads," added Harrison. "We can get a lot done in helmets and shorts; however, and will hit the ground running. You really never know what you have until you strap on the pads, but we have the entire offensive line returning, a couple of backs that got in some a year ago, and over on defense we have some key returnees and some younger players that we expect to step up and help. Even though we won eight games last season and made it to the second round of the playoffs we were all disappointed in how the season ended, and we start this week working to be a contender in the 1A ranks and to be the best team we can be."

"Spring drills will end on May 17 with a spring game at New Brockton," said Harrison, "and while we certainly won't have enough time to put in a game plan or prepare for our opponent, we will work hard to be fundamentally sound at all positions and get a lot of players in the game so we can evaluate their play. Hey, I

am the football coach at Elba and I love football. So, this is what I love and

we as coaches will try to instill that love for the game to all our players."

### Advances to third round

## Brantley sweeps Billingsley 11-5, 13-3

The Brantley Bulldogs improved their record to 25-5 and advanced to the third round of the state High school baseball playoffs last Friday with an 11-5, 13-3 doubleheader sweep over the Billingsley Bears.

In the opening 11-5 win, the Bulldogs exploded for seven runs in their final at-bat to pull away and claim the opening win in the best-of-three series. Grant Odom had 1 hit for Brantley, while Greyson Layton added 4 rbi's, Carson Jones had 2 rbi's, and Jake Kilcrease had 1 rbi. Parker Odom pitched five innings and recorded eight strikeouts.

In the 13-3 win that clinched the series, the Bulldogs scored eight runs in the opening inning to take command early and never looked back as they advanced to keep their state title hopes alive. Samuel Tompkins had two hits and drove in five runs to lead Brantley at the plate, while Greyson Layton added two hits, and Tucker Kilcrease added two runs batted in. Samuel Tompkins and Jake Kilcrease combined to pitch five innings and struck out eight Bears.

The Bulldogs will host defending state champion Millry this weekend in third round action.

### In 2A playoffs

## New Brockton ousted by G.W. Long

The New Brockton Gamecocks ran head first into two-time defending state champion G.W. Long last Friday afternoon in the second round of the state high school baseball playoffs and saw their season come to an abrupt end as the visiting Rebels rolled to a 20-3, 15-1 doubleheader sweep.

G.W. Long used a nine-run first inning and a 10-run fourth to blow the game open in the opener, while in game two the Rebels sent 16 batters to the plate in the first inning and plated 11 runs to end all Gamecock hopes early in the contest.

In the opening game, Kaden Cupp ripped a double in the bottom of the first to load the bases with no outs, but the Gamecocks managed only one run as G.W. Long turned a double play. Ethan Stinson added a fourth inning single for New Brockton, but it was the Gamecocks only other hit in the opening game loss.

In game two, the Gamecocks threatened in the top of the first when an infield single by Ethan Stinson loaded the bases with two outs. However, they left the bases loaded and G.W. Long came to bat in its half of the frame and plated 11 runs on only six hits to take command early. Kaden Cupp singled home CJ Wilkerson in the fifth inning for the Gamecocks only run.

## ADPH urges action from those potentially exposed to measles

On April 23, the Tennessee Department of Health reported to the Alabama Department of Public Health that an individual with a confirmed measles case traveled through Alabama on April 11 and made two stops during the infectious period.

Persons should check their vaccine history for vaccination with measles, mumps and rubella (MMR) vaccine. Two doses of vaccine provide up to in 97 percent effectiveness to prevent measles. While measles vaccine given to unvaccinated persons within 72 hours of exposure can prevent disease, it is still appropriate for any unvaccinated person to receive MMR regardless of time of exposure.

On Thursday, April 11, the person later found to have measles stopped at D & J Travel Plaza, 651 Highway 28, W, Livingston, at 2:20 p.m. to purchase food and gas. Then at 5:54 p.m., the person entered at Chick-fil-A, 1824 Glenn Blvd. SW, Fort Payne, to order food.

Measles is a serious viral respiratory illness that lives in the nose and throat mucus of infected people. A single case of measles will infect up to 95 percent of unvaccinated people who are exposed.

State Health Officer Dr. Scott Harris said, "If you suspect you were exposed, it is important for you to call your healthcare provider before being seen in his or her office, follow instructions for reporting, and practice social isolation if you develop any of the signs and symptoms of measles."

Symptoms of measles appear 7 to 14 days after a person is infected. Common early symptoms include:

- High fever, up to 105 degrees F
- Cough
- Runny nose
- Red or watery eyes

Two to three days after symptoms begin, an infected person may have tiny white spots appear inside of the mouth.

Three to five days after symptoms begin, the infected person could also have:

- A rash of flat red spots appear on the face and spread to the neck, chest, arms, legs and feet.
- Small raised bumps may appear on the flat red spots.

Measles is very contagious and may live up to 2 hours in the air or on surfaces after an infected person coughs or sneezes.

• People can spread measles to others 4 days before and 4 days after the rash appears.

• Measles is spread from person-to-person through

- Coughing and sneezing
- Touching items and surfaces the infected person has coughed or sneezed on.

• The best prevention against measles is receiving 2 doses of MMR vaccine.

28 If you are exposed, not up-to-date, or have unknown MMR vaccine history, please contact your doctor or pharmacist to get vaccinated.

Measles is highly contagious and can be serious in all age groups. Children younger than 5 years of age and adults older than 20 are more likely to suffer from measles complications. Common complications may include ear infections, hearing loss, and diarrhea. Severe complications may include pneumonia, swelling of the brain, and death. One measles case is also expected to result in 12-18 additional cases. Up to 20-30 percent of infected people have complications from the disease.

According to the Centers for Disease Control and Prevention, about one out of four people who get measles will be hospitalized; one out of 1,000 people with measles will develop brain swelling (encephalitis) which may lead to brain damage; and one or two out of 1,000 people with measles will die, even with the best care. Two doses of measles vaccine are over 97 percent protective against the disease.

For more information on the disease and vaccine, please go to [www.alabamapublichealth.gov/immunization/assets/measlesflyer.pdf](http://www.alabamapublichealth.gov/immunization/assets/measlesflyer.pdf) or <https://www.cdc.gov/measles/about/> or contact the ADPH Immunization Division at 800-469-4599.

Last week, The Elba Clipper reported the FEMA-required historical review of each property designated in the "buyout" program from the December 2015 flood was expected to begin in May. That process began earlier this week as crews were spotted in some locations performing the task of checking for historical connections at each of the home sites (as shown in the photos above and below). According to Elba Mayor Mickey Murdock, this task will include those doing the inspecting to dig two holes in the front yards and two holes in the back yard of each site seeking clues of any historical significance at the location before clearing the location for buy-out and removal of any remaining buildings. There have been several delays in processing the damage claims from this 2015 disaster, even after local residents had done everything required of them by FEMA officials.
